Everything I Hate About The Psych EPPP Licensing Exam

Presenter: Ellen Stein, Ph.D.

May 11, 2018 (Friday)

The Best Investment You'll Ever Make!

After twenty years of preparing candidates, Dr. Stein has taken the essential elements of EPPP preparation and honed them into a succinct one-day seminar, focusing exclusively on the three topics everyone loves to hate: **Statistics, Research Design, and Test Construction.**

While all of the EPPP content can be self-studied, these three content areas are the source of much anxiety and confusion for Psy. D. and Ph.D. candidates alike, and many candidates feel intimidated and ill-equipped to master these crucial content areas. Dr. Stein takes the key terms, concepts, and formulas you will need to pass the EPPP, and makes them approachable, understandable, and even interesting!

In this workshop, you will put the finishing touches on your firm grasp of these anxiety-provoking sections of the EPPP exam:

- Statistics
- Research Design
- Test Construction

And you will be able to move forward with confidence!
